General Electric Energy Controls order

Saratoga NY, September 2012; Encore Electronics has received an order to provide Monitoring and Protection Equipment which GE incorporates into their Gas Turbine Controls for its Power Plant customers.

GE Energy, located in Schenectady N.Y. Manufacturers Gas Turbines and Generators sold worldwide.

This Monitoring Equipment provides Control and Protection from power lines spikes which could potentially cause damage. General Electric's Engineers provide the Engineering and Design Support to their customers. Encore Electronics was sourced to manufacture the Cabinets to GE's specifications.

Encore has had a relationship with GE Energy for many years. We see further potential for additional orders of this type of equipment in 2013.

For additional information contact,

Jim Frederick
